REPAIR. A Work Order estimate of the parts, labor and functional test will be faxed to your office for approval prior to any work performed. Repairs are generally completed within 2-4 business days. Should your mask fail the functional test, an overhaul will be required. A revised Work Order will be faxed to your offices for approval prior to any additional work being performed. An AOG fee of \$250 will be imposed should you wish the guaranteed two-day TAT.

OVERHAUL/RECERTIFICATION. A Work Order estimate of the parts, labor, overhaul kit and functional test will be faxed to your offices for approval prior to any work performed. Overhaul and recertification is generally completed within 2-5 business days. Overhaul costs are generally **\$1300 labor plus parts**—depending on the mask's condition. An overhaul includes repairs and recertification; the entire unit is disassembled and gone thru from head to toe. An AOG fee of \$250 will be imposed should you wish the guaranteed two-day TAT.

FUNCTIONAL TEST: The functional test— aka “bench test” - which identifies leaks or blockages not seen by the naked eye **must be performed** prior to the issuance of any FAA paperwork for either mask repair or mask overhaul.

NOTE: Should you decide to have the mask scrapped or returned without completion of the Work Order, there will be an evaluation/scrapping fee.

THE UNDERSIGNED IS AUTHORIZED AND REQUESTS THE ABOVE-CHECKED PROCEDURES FOR THE FOLLOWING MASK:

	YES	NO
MASK MAKE/MODEL	SERIAL #	AOG?
